**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 21 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Claim Rejections - 35 USC § 102***

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 19 is rejected under 35 U.S.C. 102(e) as being anticipated by Sun et al. (US Patent Application Publication US 2003/0047541 A1).
3. In re claim 19, Sun, in the US Patent Application Publication US 2003/0047541 A1; figures 1 – 2B and related text, discloses a low-k dielectric film; and whisker reinforcement distributed throughout the film, wherein the whisker reinforcements are selected from the group consisting of SiC, Si<sub>3</sub>N<sub>4</sub>, oxides, polymers, and diamond structured materials (Paragraph 0033).

### ***Allowable Subject Matter***

4. Claims 2 – 4, 6 – 17, 23 and 24 are allowed over the prior art of record.

***Response to Arguments***

5. Applicant's arguments filed 22 November 2004 have been fully considered but they are not persuasive for the following reasons.

6. Applicant contests that Sun does not teach that the dielectric layer has fibers made out of SiC, Si<sub>3</sub>N<sub>4</sub>, oxides polymers or diamond structures. However, Examiner respectfully submits that Sun teaches that the added materials can be, among other things, aramid fibers, which are polymers. Therefore, Sun, discloses all the limitations of claim 19.

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
